

Curriculum Map

Academic unit: Department of Chinese, Translation and Linguistics
Major/Programme award and title: BA (Honours) in Linguistics and Language Technology **Total number of credits:** 48

PILOs and/or MILOs

Upon successful completion of this programme, students should be able to

- O1: Apply knowledge of linguistics and modern language technology to their professional careers;
Perform, as proficient, effective and versatile communicators with a good understanding of the nature of language, language-related tasks in a competitive and multilingual workplace;
- O2: Benefit from their exposure to world languages and cultures when working with people in an international and culturally diverse workplace;
- O3: Think analytically, critically and creatively, and apply their training in knowledge discovery, evaluating alternatives and formulating ideas, which may be innovative, to their study, work and life;
Continue to develop intellectually in a life-long process.
- O4: _____
- O5: _____
- O6: _____
- O7: _____
- O8: _____

City University Graduate Outcomes

On graduation, City University graduates will be able to

- O11: Reflect on the ethical and social responsibilities required of professional citizens in a global society
- O12: Apply multi-disciplinary critical thinking skills to solve problems and create new ideas
- O13: Generate a positive and flexible approach to lifelong learning and employability
- O14: Apply effective communication, language, numerical and IT skills to a variety of professional settings
- O15: Relate cultural awareness to collaborate effectively in a broad range of teamwork situations

Graduate Attributes (Professional bodies)(Optional)¹

- O16: _____
- O17: _____
- O18: _____
- O19: _____
- O20: _____
- O21: _____
- O22: _____
- O23: _____
- O26: _____

¹ **Optional-** blank if
 - the mapping with professional bodies cannot be shown in the curriculum map (e.g., it follows a different approach that does not fit the current template), or
 - the graduate attributes from professional bodies have already been embedded in the MILOs/PILOs
